

AWESOME®

TEST RESULTS

TOTALLY BIODEGRADABLE
(AS PROVEN BY THE RIVER DIE-AWAY TEST)

We also had **Awesome®** tested by Scientific Material International, Inc., Coral Gables, Florida, to confirm our claims and give credibility to them. A list of the tests are as follows:

- Effects on Painted Surfaces
- Residue Test
- Sandwich Corrosion Test
- Stress Cracking on Acrylic Plastics
- Immersion Corrosion
- Low-Embrittling Cadmium Plate
- Effects on Transparent Acrylic Plastics
- Quality
- Effects on Unpainted Surfaces
- Quality
- Acrylic Cracking Test
- Paint Softening Test
- Hydrogen Embrittlement Test

Awesome® not only passed but excelled in all tests.
